## Advertisement for School Supplies – En Español

There is a BIG SALE at the local school supplies store, they have asked you to create a one page advertisement to appeal to the Hispanic community. The owner would like for you to include the following and present it on an 8 ½ x 11 sheet of white paper.

- Pictures of at least 10 items (from the vocab list)
- Label the items with their Spanish names
- Give the prices of each item in words and numbers
- Create a name for the store – remember there is NO use of apostrophe S – for example – it is not Pepe's Tienda - is La Tienda de Pepe

You will be graded on Correctness, Neatness, Completion and Creativity.
