You must include a visual aid.—Your visual aid can be video, Powerpoint, poster or a handout to the class. (If you need copies, they must be made in advance, NOT DURING THE PERIOD IN WHICH THEY ARE DUE)

This page will serve as your grade sheet, so be prepared to turn it in with your project. I encourage you to be creative. Plan a presentation that you would enjoy watching.

ALL computer documents must be saved to be compatible with school software, if your project doesn't work the day you are assigned to give it – you present anyway and lose the points associated with your visual aid.

* If you choose to do a PowerPoint presentation, you may bring in a disk or send it to me in an email attachment at jerilyn.giska@boone.kyschools.us
